## A New & Improved Way To Manage Your Finances Introducing My Financial Vault (MFV)

State Bank has recently made improvements to the financial management tool in Online Banking. Now, it's easier to manage money, monitor spending and actually see where your money goes. Improvements include:

- A more complete financial picture, with the ability to sync your account information from other financial institutions.
- Automatically tagged and categorized transactions, so it's easier to understand spending habits.
- Better visual tracking of your progress; reach financial goals quicker and easier.
- A cash flow calendar that shows what is coming in and going out.

On July 9, 2018 log in to Online Banking and check out the new features. All existing data in OFM will carry over to My Financial Vault. Both the MFV and OFM tabs will be accessible until September 1; after that, the OFM option and data will be permanently removed. Please take time to review the information in MFV for correctness as soon as possible.

Reach out to Client Care if you have any questions or we can assist in any way.

Thank you for banking with State Bank.
